## Rich and flavourful sound, aged to perfection.

### Pure Malt Speakers

Sit back and experience the **whiskey-flavoured sounds** of Pure Malt speakers, an innovative speaker concept from Pioneer. These speakers have been crafted from **100-year-old white oak whiskey barrels**. The wood has absorbed the whiskey, creating a distinctively **smooth and rich acoustic quality**, unlike that of any virgin wood. Each speaker set is a true original — steeped in tradition — that expresses magically pure audio.

## Pure Malt Speakers – Features

**An ultra-rigid speaker cabinet.** White oak is one of the world's hardest woods, which makes this unique cabinet extremely rigid. It suppresses unwanted cabinet vibration and enhances the drivers' performance, contributing to the superbly expressive sound.

**Silk soft dome tweeter.** This newly designed silk fabric diaphragm reveals gently smooth audio. Its combination of an aluminium voice coil and a ferro fluid-cooled magnet system improves both heat radiation and magnetic efficiency. The result is a superior performance with crystal-clear sound image.

**Woofer with composite Aramid fibre.** The woofer cone is composed of a rigid composite Aramid fibre. The same material is used for the diaphragm and the centre cap, which further improves the rigidity of the structure. This allows the vibrations from the voice coil to be transferred into sound waves without unwanted cone resonance. Audio can be reproduced more accurately, for a smooth and natural sound.

Speaker type	10 cm cone woofer, 2 cm dome tweeter
Impedance	6 $\Omega$
Frequency Range	50 – 40,000 Hz
Sensitivity (1 W/1 m)	84 dB
Maximum Power	100 W
Crossover Frequency	3,500 Hz
Dimensions (W x H x D)	154 x 246 x 213 mm
Weight	3.7 kg

### PIONEER'S ENVIRONMENTAL PROGRAMME

This product has been developed as part of Pioneer's eco-philosophy. By recycling whiskey barrels, waste — as well as the need for new materials — is reduced. Pioneer's commitment to a cleaner environment also includes: use of recycled packaging and materials, reduced packaging, elimination of ozone-depleting substances and lead-free soldering.

For detailed information concerning Pioneer's Environmental policy, please visit the following site: <http://www.pioneer-eur.com/environment>

Features and specifications of the products described or illustrated in this leaflet are correct at the time of printing but could change as production changes might occur. This leaflet may contain typographical errors and the colours of the depicted products may deviate slightly from reality. Consult your Pioneer dealer to ensure that actual features and specifications match your requirements.
